

Magnum

Self-Priming Centrifugal pumps
for chemical fluids

REHWALD

Apollo - Pumpen

Magnum
with flexible coupling

Hydraulic driven

Magnum with gasoline engine
and Roll Cage

Magnum close-coupled

Magnum kompakt

Magnum with diesel engine and
Roll Cage

- High Performance
- Lightweight
- Rugged
- 1 1/2", 2" or 3" ports

Application

Magnum Pumps
is an corrosion
Resistant pump
for agriculture,
marine and
construction

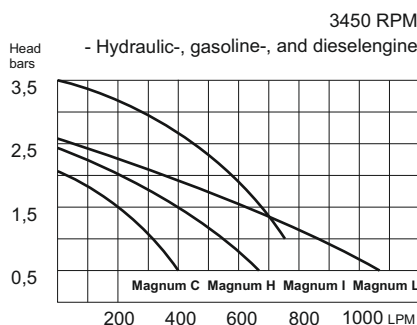

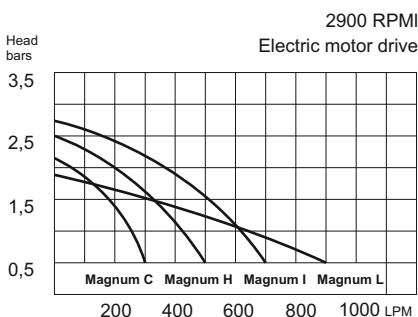

Pumpe Materials

Housing, volute
and impeller: glass-
Reinforced polyester.
Rhyton and
Polypropylene available

Shaft seal:
Carbon and ceramic or
Siliconized Graphite

Fasteners:
Stainless steel

Elastomers:
EPDM, Buna-N
or Viton

Port Size

Magnum C = 1,5" Magnum H = 2"
 Magnum I = 2" Magnum L = 3"

All performance data based on water;
specific gravity 1,0
